

## 5. Trouble getting problems to appear? –

If you are having trouble getting problems to appear in your Internet Explorer version 9.

Open IE-9

Then press the F12 key.

You should see a debug tool on the lower part of the screen. Check the menu bar of that screen. On the rightmost menu items should be "Browser Mode IE9" and "Document Mode IE9 Standards". If they are IE7 or IE8, change them to "Browser Mode IE9" and "Document Mode IE9 Standards".
